

JOURNAL OF FOOD, AGRICULTURE & ENVIRONMENT

WFL Publisher
Science & Technology

www.world-food.net

Vol. 1, No.2

ISSN: 1459-0255

April 2003

General Information

Aims and Scope: The Journal of Food, Agriculture & Environment publishes peer-reviewed original research, critical reviews and short communications on food science and technology, agriculture, animal science and human nutrition or human health, with particular emphasis on interdisciplinary studies that explore the intersection of food, agricultural, and the environmental. The journal also considers a limited number of relevant scholarly manuscripts addressing ethical or socioeconomic issues related to modern agricultural and environmental sciences. The Journal offers advertisement space for special announcements.

Editorial office

Director : Ramdane Dris PhD.
Editor-in-Chief : Shri Mohan Jain PhD.
Assistant Editor : Dr. T. N. Shivananda
Raina Niskanen PhD.

Subscription: Orders are accepted on a prepaid and calendar-year basis. Issues are sent by standard mail. Priority rates are available upon request or at: <http://www.world-food.net/ratesorder.php>. Please find subscription rates and ordering details in detachable form included in every Issue of the Journal, or request from the editorial office: (email: Editorial@world-food.net), or download it from <http://www.world-food.net/ratesorder.php>.

Important Note: If you are not a member of ISFAE yet, please visit our homepage: <http://www.isfae.org/member.php> and register to benefit from special rates when purchasing scientific journal, plus online ISFAE magazine or taking part in ISFAE meetings. For more details, please contact ISFAE, Executive Secretariat, Meri-Rastilantie 3 C, FIN-00980 Helsinki, Finland. *email: isfae@isfae.org

Abstracting: JFAE is abstracted in Chemical Abstracts (CAS), Apic abstract, IIR Abstract and Fridoc database.

Advertising: Inquiries regarding advertisements or announcements should be sent to World Food Rd Ltd. Meri-Rastilantie 3 C, FIN-00980, Helsinki, Finland. Tel: +358 9 75 92 775 or e-mail: Advertisement@world-food.net or info@world-food.net

Book Proposal: WFL Publisher invites scientists and experts to submit book proposal (s). We suggest that books are very focused and of high-level (research and/or development level). For more details, contact us at: publisher@world-food.net.

Copyright: The articles published in this journal are protected by Copyright of World Food RD, WFL Publisher and the following terms and conditions apply to their use (<http://www.world-food.net/copyright.php>). All rights are reserved. **No part of this journal may be reproduced in any form without the written permission of the publisher.**

Online information: Table of contents, Abstracts, Advisory or Editorial Board listings, and Instructions to Authors regarding manuscript preparation can be accessed free of charge at www.world-food.net/scientjourn.php.

Authorization: To photocopy items for subscribers grant personal use of a specific client. This consent does not extend the copying for general distribution, for advertising or promotional purposes, for creating new collective works or for other enquiries. In such cases, specific written permission must be obtained from the *WFL* publisher, Meri-Rastilantie 3 C, FIN-00980 Helsinki, Finland.

Derivative Works: Subscribers may reproduce tables of contents or prepare lists of articles including abstracts for internal circulation within their institutions. Permission of the *WFL* Publisher is required for resale or distribution outside the institution. Permission of the *WFL* Publisher is required for all other derivative works, including compilations and translations.

Electronic Storage or Usage: Permission of the *WFL* Publisher is required to store or use electronically any material contained in this journal, including any article or part of an article. Except as outlined above, no part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the *WFL* Publisher.

Notice: No responsibility is assumed by the World Food RD Ltd or the *WFL* Publisher or ISFAE for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas in the material herein. Although all advertising material is expected to conform to ethical standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

Subscription Rate

The Print and/or Online journal of Food, Agriculture & Environment (JFAE)

2004, Volume 2 (4 issues)

Print ISSN 1459-0255 / Online ISSN 1459-0263

One-year subscription rate includes print, and/or online journal. The subscription cost is very low compared to many other International Journals. One-year membership of the Scientific Journal of Food, Agriculture & Environment (JFAE) will give you access to the print and/or online version of the Journal. For one-year subscription, subscribers will get 4 issues of the Print journal and/or access to the Online journal services (subscriber can read and download full articles).

Subscribers should send us by **fax or by email or by air mail** the order. Payment should be made either by foreign payment (all charge should be paid by customers) or by Credit Cards such as visa or master cards. (We neither accept cheques nor bank drafts). Only If you face serious problems in sending the payment, kindly contact us at: Publisher@world-food.net

	Developed countries	Developing countries
Institutional Rates		
Print Journal	€400	€250
Online Journal	€380	€200
Print Journal + Online Journal	€500	€350
Individual Rates		
Print and/or Online Journal	€195 / 185	€120/110

WFL Publisher is willing to assist some libraries or departments from some developing countries in case they cannot afford to pay the full subscription fees. *WFL* Publisher is willing to make few exceptions to waive the subscription fees. Kindly contact us at: Publisher@world-food.net.

***WFL* Publisher offers 50% reduction (to each subscriber) plus some free announcements or advertisements if you invite 5 or more libraries or departments or individuals to subscribe the journal JFAE.**

This scientific journal is published by *WFL* Publisher, Helsinki, Finland.

INTERNATIONAL SOCIETY OF FOOD, AGRICULTURE AND ENVIRONMENT

We welcome Donations or Sponsors

ISFAE Executive Secretariat

Meri-Rastilantie 3 C, 00980 Helsinki, Finland / email:isfae@isfae.org / web site: www.isfae.org

The International Society for Food, Agriculture and Environment–ISFAE– mission’s is to disseminate news and information and promote science, and technology. it provides consultant service to institutions, companies and organisations.

Aim of ISFAE : The aim of the **ISFAE** is to bring together scientists and professionals, to stimulate, and coordinate scientific or professional meetings, exhibitions and consultant service on an international scale.

Membership and benefits : ISFAE provides its members with a scholarly platform to share knowledge and information, develop information networks with colleagues who have similar interests and concerns. The main benefit of ISFAE membership is the receipt of its online journal ‘‘Agri-Food ‘Research & News’’ as well as an access to an extra site ‘‘Reports & Thesis’’ with a password supplied only after joining. Members of ISFAE will be able to purchase at reduced costs the scientific journal of Food, Agriculture & Environment’’ (JFAE) . Members of ISFAE who attend any scientific meeting held under the auspices of the ISFAE at reduced costs and receive conference proceeding or resulting books at discounted rates. ISFAE will arrange each year meetings on issues related to ‘‘Food, Agriculture or Environment’’, and will provide opportunities for private and public firms, companies, industries or institutes to exhibition their products or materials at its conferences. If you have not joined the ISFAE, now is your opportunity to be updated on current events and news. The annual ISFAE subscription rate is symbolic, to cover the technical costs. The **ISFAE** invites head of institution, head of department or decision makers to plan local, regional or international meetings or exhibitions. The ISFAE will disseminate the information, invites participants, guides organizers and contributors, and take charge of resulting publication and distribution of the ‘‘Agri-Food & Environment’’ proceeding series, or/and books. With the collaboration of *WFL* publisher we may plan a special JFAE number.

ISFAE online journal accepts: Popular articles, News and information about ongoing R&D projects, findings/achievements, methodology/ technology used in laboratories or fields, newsletters, forthcoming specific courses/lectures, news on meeting, conference workshop, important seminar, training programs or exchange visits, opinions and views, nominations, summary of reports, thesis, events, meetings, instructions and recommendations to farmers/growers, job announcements and employment opportunities, advertisements. For more details please contact:isfae@isfae.org

Subscription Rate: Basic fee plus online journal Agri-Food ‘‘Research & News’’ ISSN: 1459-2029, 2003, Volume 1 (4-8 issues)+ an extra site ‘‘Report & Thesis’’ plus a free access to a Discussion Form. **There is 50% reduction in ISFAE membership if you invite 5 or more libraries or department to join ISFAE. Special rates for students and members from developing countries are considered.**

	Institutions	Individuals	Students*
1.Europe; N.America, Australia	€120	€60	€ 30
Japan, Korea, Gulf State, N. Zealand, S.Africa			
2. Rest of the world	€60	€40	€20

Students*: Identification is needed when subscribing (to be send by air mail with the signed application form and payment documents).

ISFAE membership application : Fill out all fields in BLOCK PRINT and PLEASE make sure to include the payment or signed copy of the payment to the ISFAE-Executive Secretariat along with this application and return to: ISFAE-Executive Secretariat, Meri-Rastilantie 3 C, 00980 Helsinki, Finland.

Kindly inform us of Foundations, Institutions, Organisations, Companies or Individuals to support ISFAE's journals or meetings.

Thank you!

We Welcome Sponsors and Donations

A Message From the Executive Committee

Welcome to the International Society of Food, Agriculture and Environment (ISFAE). The value of a professional society such as ours is primarily in the networking opportunities it can provide. Successful networking requires active participation by the members and leadership in organizing networking/interactive events. Since ISFAE is a newly established multidisciplinary society, its success fully depends on our ability to attract and retain members.

The Executive Secretariat of ISFAE, led by an *Executive Committee and a Secretary General*, which has already created core structures that provide a solid foundation for the Society to flourish and bring members from different corners of the world under its umbrella in the future. The Society now has an impressive web presence (www.isfae.org) and its own scientific journal (the Journal of Food, Agriculture & Environment) as well as a popular Online journal Agri-Food "*Research & News*" plus a Forum for discussion (Register For Free). We also provide consultant service to farmers/growers, institutions or companies.

To make the ISFAE strong and popular, and give the momentum it deserves, all of us ought to participate in some of the following ways:

- Providing leadership in arranging self-funded local, national and international conferences, symposia, workshops, lectures and/or exhibitions under the auspices of ISFAE.
- Contributing quality manuscripts to our Scientific Journal JFAE (<http://www.isfae.org/scientjourn.php>) or (Popular Online Journal <http://www.isfae.org/isfaemail.php>) and encouraging others to do so.
- Promoting ISFAE as a whole, and its different sections, Food, Agriculture and Environment, at conferences, lectures, relevant magazines, journals, network or news papers and within your institutions or associations, to encourage growth in membership.

We appreciate if you can make interviews in local magazines or journals to inform about the importance of ISFAE and the need of the scientific and popular journals. For more details, kindly contact us at isfae@isfae.org

Contact information for all the officers of the section and its various divisions are available at the ISFAE website or contact:

- Secretary General: Ramdane Dris PhD, isfae@isfae.org / Dris.UH@a1netti.com
- Section Food & Health :Chairman, Prof. Ashok Pandey, pandey@csrtrd.ren.nic.in / ashokpandey56@yahoo.co.in
- Section Agriculture: Chairman, Prof. Jerry Nowak, jenowak@vt.edu
- Section Environment: Chairman, Hari Pant PhD, hari@mail.ifas.ufl.edu

The promotion of ISFAE is important for all of us. Therefore, we ask that we all consider disseminating the contents of this message through our institutional networks, relevant magazines and journals, or other working groups or professional associations in which we participate. Please communicate with the Secretariat or the Section / Sub-Section Chairs with suggestions on topical issues that could be the focus of possible future conferences and be prepared to play a leading role in managing such events.

We look forward to your full support and strong leadership in achieving a vibrant performance for our Society in the days ahead.

*The Secretary General & The Executive Committee
Society of Food, Agriculture and Environment-ISFAE*

Membership fees in ISFAE is reduced by 50 percents if you invite 5 or more libraries or departments to join ISFAE. Kindly contact us at: isfae@isfae.org

Preface

Research on Food and Agriculture is progressively moving towards an interdisciplinary study of sustainable food production to meet the demand of growing human populations. However, as more countries industrialize, there is an increase in air and water pollution, soil contamination, as well as elevated levels of global warming and depletion of the ozone layer. This complex scenario challenges researchers to develop and test more appropriate technologies for sustainable agriculture. Research, for example, is being carried out to overcome problems of environmental stress, minimize the use of pesticides, slow post-harvest storage losses, and explore nutrition, animal science and human nutrition or human health, by using conventional and new technologies such as biotechnology, mutation-assisted breeding and molecular biology.

The Journal of Food, Agriculture, and Environment (JFAE) is dedicated to meeting the need for a new journal that can encompass this wide range of topics and interdisciplinary approaches. JFAE will publish (in print and on-line versions) peer-reviewed original research, protocols, critical reviews or short communications in food science and technology, and agriculture or environment, with particular emphasis on interdisciplinary studies on food, human nutrition, agricultural, animal science or/and environment. For advice or more information, please contact the editorial Office.

Ramdane Dris PhD.

JFAE: You are cordially invited to contribute to our new journal manuscripts on original research work or critical reviews in food science, human nutrition, agriculture or environment. The journal also considers manuscripts on biotechnology, ethical and socioeconomic issues related to modern agricultural and environmental sciences.
ISFAE: The ISFAE invites heads of institutions, heads of departments or decision makers to plan local, regional or international scientific meetings or exhibitions. The ISFAE will disseminate the information, invites participants, guides organizers and contributors, and take charge of resulting publication. For more details email to: isfae@isfae.org

WFL Publisher offers 50% reduction (to each subscriber) plus some free announcements or advertisements if you invite 5 or more libraries or departments to subscribe the journal JFAE Kindly contact us at: Publisher@world-food.net.

Vol. 1, No.2	CONTENTS	April 2003
Commentary		
Should the hazard analysis and critical control point (HACCP) system be checked? A nutritional viewpoint <i>J.M. Soriano., J.C. Moltó and J. Mañes</i>	10	Postharvest biology and technology of litchi fruit <i>Yueming Jiang, Lihu Yao, Amon Lichter and Jianrong Li</i> 76
Food and Health		
Poverty alleviation, food security and the well-being of the human population through family poultry in low-income food-deficit countries <i>E.F. Guèye</i>	12	Application of controlled and modified atmospheres for the preservation of postharvest quality in fresh fruits and vegetables <i>Susana C. Fonseca and F. Xavier Malcata</i> 82
Phenolic compounds, ascorbic acid, carotenoids and antioxidant properties of green, red and yellow bell peppers <i>Donglin Zhang and Yasunori Hamazu</i>	22	Application of hydrolyzed carrot pomace as a functional food ingredient to beverages <i>Thomas Stoll, Ute Schweiggert, Andreas Schieber and Reinhold Carle</i> 88
Inactivation of microorganisms in apple cider using spice powders, extracts and oils as antimicrobials with and without low-energy pulsed electric field <i>Ziwei Liang, Zhihui Cheng and Gauri S. Mittal</i>	28	Pre-storage ethrel dip reduces chilling injury, enhances respiration rate, ethylene production and improves fruit quality of 'Kensington' mango <i>Suresh Nair and Zora Singh</i> 93
Speciality rices of the world: effect of WTO and IPR on its production trend and marketing <i>R. C. Chaudhary</i>	34	Comments about rheological effects of food hydrocolloids addition <i>Diego Gómez-Díaz and José M. Navaza</i> 98
Optimization of the extraction of polyphenols from grape seed meal by aqueous ethanol solution <i>John Shi, Jianmei Yu, Joseph Pohorly, J. Christopher Young, Mike Bryan and Ying Wu</i>	42	Effects of Ascorbic Acid Supplementation on the Immune Function and Laying Performance of Heat-stressed Laying Hens <i>Hai Lin, Johan Buyse, Qingkai. Sheng, Youmei Xie and Jianlan Song</i> 103
Analytical evaluation of 'Cornicabra' virgin olive oil from Castilla-La Mancha (Spain) <i>Andrés Alvarruiz, Enrique Fernández, Francisco Montero, José Granell, and José E. Pardo</i>	48	Genotypic variations in physiological deterioration of cassava (<i>Manihot esculenta</i> Crantz) storage roots under inland valley conditions <i>Indira J. Ekanayake and Omar Lyasse</i> 108
Evaluation of breadfruit (<i>Artocarpus communis</i>) in traditional stiff porridge foods <i>Olutayo M. Mayaki, John O. Akingbala, Gail S. H. Baccus-Taylor, and Sydney Thomas</i>	54	Application of diluted sea water to soilless culture of tomato (<i>Lycopersicon esculentum</i> Mill.): effects on plant growth, yield, fruit quality and antioxidant capacity <i>M. Lucia D'Amico, Riccardo Izzo, Franco Tognoni, Alberto Pardossi and Flavia Navari-Izzo</i> 112
Membrane-bound polyphenol oxidases and peroxidases from <i>Metroxylon sagu</i>: changes in activity and isoenzyme profiles during maturation <i>Galila Hassan Onsa, Nazamid bin Saari, Azizah Osman and Shamsul Bahri</i>	60	Comparison of flavour compounds in wasabi and horseradish <i>Tamanna Sultana, G. P. Savage D. L. McNeil and N G Porter and B. Clark</i> 117
Lipid profile of prickly pear pulp fractions <i>Mohamed Fawzy Ramadan and Jörg-Thomas Mörsel</i>	66	Content of β-carotene in organic milk <i>Patricia Toledo and Anders Andrén</i> 122
Materials for the calibration of the FTC pea tenderometer <i>Yvan Gariépy, Clément Vigneault and Vijaya G.S. Ragahvan</i>	71	Remarks on food-borne viral gastroenteritis outbreaks <i>Juan I. Reguera and M^a Inmaculada Herrera</i> 126
		The storage of globe artichokes under modified atmospheres <i>Alexios A. Alexopoulos, Konstantinos A. Akoumianakis and Harold C. Passam</i> 130

Effect of the essential oils of <i>Cymbopogon citratus</i>, <i>C. nardus</i> and <i>Cinnamomum zeylanicum</i> on pest incidence and grain quality of rough rice (paddy) stored in an enclosed seed box <i>Priyani Paranagama, Thushara Abeysekera, Lionel Nugaliyadde and Krishanthi Abeywickrama</i>	134	Effects of pruning and spacing on the yield and quality of eggplant <i>Mohammad Mahdi Pessarackli and Ramdane Dris</i>	215
Low temperature-induced changes in the relative amounts of ribosomal RNAs in potato mitochondria <i>Yannis Gounaris</i>	138	Phosphorus release characteristics of manure and manure-impacted soils <i>Vimala D. Nair, Donald A. Graetz, and Daniel O. Dooley</i>	217
Effect of fungal infection on proximate nutrient composition of coconut (<i>Cocos nucifera</i> Linn) fruit <i>A.K. Onifade and Y.A. Jeff- Agboola</i>	141	Occurrence of gastrointestinal pathogens in soil of potato field treated with liquid dairy manure <i>Ching-Hsing Liao, C. Wayne Honeycutt, Tim S. Griffin and John M. Jemison</i>	224
Effect of corona discharges on granular starches <i>Cheng-yi Lii, Chia-ding Liao, Leszek Stobinski and Piotr Tomasik</i>	143	Wetting capacity distribution in aggregates from soils with a different management <i>A. Ellies C. Ramirez, and R. H. Mac Donald</i>	229
Applications of mild technology to horticultural products. Experiences from the IVTPA <i>Emilio Senesi</i>	150	Effect of rootstock on fruit quality and peel peroxidase activity of 'Afourer' mandarin fruit at low temperature storage <i>F. El-hilali, A. Remah, A. Ait-Oubahou and O. Akhayat</i>	234
Agriculture		An analysis of space-filling fractal dimensions, resulting from measurements on Plant canopies <i>D L Critten</i>	238
Agriculture in Iraq: Resources, Potentials, Constraint, and Research Needs and Priorities <i>A. A. Jaradat</i>	160	Vitamin C and E can alleviate negative effects of heat stress in Japanese quails <i>Kazim Sahin, Nurhan Sahin, Muhittin Onderci, Mehmet F. Gursu and Mustafa Issi</i>	244
Effects of pre-cultivation on sugar metabolic kinetics of suspension plant cells measured by mid-Infrared spectroscopy <i>Atsushi Hashimoto, Atsushi Yamanaka, Mikihiro Kanou, Faizun Nahar and Takaharu Kameoka</i>	168	Screening of potential gibberellin producing <i>Fusarium</i> strains for the hybrid rice production <i>Avinash. C. Srivastava, Shahid Ahamad, D. K. Agarwal and Ashok. K. Sarbhoy</i>	250
Mineral nutrition of tomato <i>Upendra M. Sainju, Ramdane Dris and Bharat Singh</i>	176	Deterrent effects of some Sri Lankan essential oils on oviposition and progeny production of the cowpea bruchid; <i>Callosobruchus maculatus</i> (F.) (Coleoptera; Bruchidae) <i>Priyani Paranagama, Chandika Adhikari, Krishanthi Abeywickrama and Premarathne Bandara</i>	254
Investigations into the persistence of <i>Escherichia coli</i> endophytically, in cabbage (<i>Brassica oleracea</i> var. <i>capitata</i> L.) and associated alteration in host proteins and chitinase activity <i>Susan M Rafferty, Alan C. Cassells and Frederick R Falkiner</i>	184	Can GM and non-GM crops coexist? setting a precedent in Boulder county, Colorado, USA <i>P.F. Byrne and S. Fromherz</i>	258
Optimizing grape quality through soil management practices <i>Steve J. Wheeler and Gary J. Pickering</i>	190	Influence of environmental factors and orchard management on yield and quality of sweet cherry <i>Stefano Predieri, Ramdane Dris, Lars Sekse and Francesca Rapparini</i>	263
Corn yield response to saline irrigation water applied with a trickle system <i>Attila Yazar, Burçin Gençel and Metin S. Sezen</i>	198	Investigating of the possibility of second production in a year from rock partridges (<i>A. graeca</i>) under intensive breeding <i>Kemal Kirikçi, Orhan Çetin, Aytekin Günlü, Cafer Tepeli and Alper Yilmaz</i>	267
Comparative performance of four sources of enriched phosphocompost and inorganic fertilizer application on yield, uptake of nutrients and biological activity of soil under soybean-wheat rotation <i>M.C.Manna, P.K.Ghosh and T.K.Ganguly</i>	203	Head bugs: components of host-plant resistance in sorghum (<i>Sorghum bicolor</i> (L.) Moench) <i>Showemimo, F.A.</i>	270
Performance of composted vine shoots as a peat alternative in casing materials for mushroom cultivation <i>Arturo Pardo, J. Arturo de Juan and J. Emilio Pardo</i>	209		

Variations in agronomic characteristics of irrigated rice varieties: lessons from participatory trials in South Eastern Tansania <i>Elly M. Kafiriti, Stephane Dondeyne, Solomon Msomba, Jozef A. Deckers and Dirk Raes</i>	273	Linear alkylbenzene sulfonates (LAS) and soil microbial activity <i>Clementina Pozo, Belén Rodelas, Concepción Calvo, María Victoria Martínez Toledo and Jesús González-López</i>	348
Environment		Resistance management to <i>Bt</i> engineered crops <i>Hugo Cerda and Ali H. Sayyed</i>	351
Total and potentially phytotoxic trace metals in southeastern Italian soils <i>Giuseppe Ferrara, Gennaro Brunetti, Nicola Senesi, Donato Mondelli and Vito La Ghezza</i>	279	Shifting the paradigm: alternatives to the fatal harvest of industrial agriculture: Reflections on the past and future of farming by California agricultural students <i>Tim Krupnik, Sandell McLaughlin and Miguel A. Altieri</i>	355
Adoption of conservation production systems within the upper region of the Scioto River watershed in Ohio <i>Ted L. Napier and Tracy Bridges</i>	287	News and Information	358
Life cycle assessment applied to coffee production: investigating environmental impacts to aid decision making for improvements at company level. <i>Roberta Salomone</i>	295		
Sensitivity of upland arthropod diversity to livestock grazing, vegetation structure and landform <i>Peter Dennis</i>	301		
Carbon sequestration in wetlands: concept and estimation <i>Hari K. Pant, Jack E. Rechcigl and Martin B. Adjei</i>	308		
Comparison of treatment technologies for pre-treated animal rendering plant wastewater in Scotland <i>Catherine A. O'Brien, Miklas Scholz and Gordon L. cConnachie</i>	314		
Thinning Scenarios for <i>Gmelina arborea</i> plantations in southwestern Nigeria using density management diagrams <i>Jonathan C. Onyekwelu, Peter Biber and Bernd Stimm</i>	320		
The potential role for microbial control of orchard insect pests in sustainable agriculture <i>Lawrence A. Lacey and David I. Shapiro-Ilan</i>	326		
Bio-intensive pest management (BIPM) in major vegetable crops: an Indian perspective <i>N. Dhandapani, Umeshchandra. R. Shelkar and M. Murugan</i>	333		
Use of waste generated from cinnamon bark oil (<i>Cinnamomum zeylanicum</i> Blume) extraction as a post harvest treatment for Embul banana <i>Lakshmie S. Ranasinghe, Bimali Jayawardena and Krishanthi Abeywickrama</i>	340		
Bypass- and matrix flow produce interflow and contribute to groundwater protection <i>Klaus-Peter Seiler</i>	345
